THE MINISTER OF STATE OF THE MINISTRY OF STEEL (SHRI SONTOSH MOHAN DEV): (a) Yes, Sir. The Bureau of Industrial Costs and Prices has recommended use of 50% imported low ash coal in blend in SAIL plants instead of 10-30% use prevailing in 1987-88/ 1989-90. It has also recommended increase in use of imported coal in blend from 30-50%, as a post-modernisation measure in SAIL plants, for increasing efficiency and productivity.

(b) Quantity and approximate C&F value of 'Low Ash Metallurgical Coking Coal' imported by SAIL during the last three years are as follows:-

Year	*Quantity (Million tonnes)*	*Approx. C&F value (in Rupees)*
1988-89	3.740	329.2 crores
1989-90	3.748	426.8 crores
1990-91	4.493	543.8 crores

(c) Every year all the quantities of coking coal indigenously produced are consumed in the steel sector; imports being resorted to meet only the balance requirement both in quantitative and qualitative terms. Efforts are constantly made to augment the production and washing of the raw coking coal indigenously. Government closely monitors the production of raw coking coal, washed coal and timely despatches to the plants with a view to ensuring that supplies are effected as planned.
